

The bridge to possible

Cisco Aironet Remote-Work Offer

Buy 1 access point, get 1 free

Remote work has become a "new normal," to help protect workers' health and help ensure business continuity. It's time for you to get a connectivity solution that's secure, easy, and affordable with the Cisco Aironet Remote-Work Offer.

For a limited time, buy one Cisco Aironet access point that supports the 802.11ac Wave 2 standard, and you'll get one free.

How to buy

Find a partner

Benefits

Secure

Cisco Aironet access points can function as "OfficeExtend access points" (OEAPs) so people working from home can access the corporate network securely without needing a VPN connection or technical knowledge.

Simple

Deploy a high-performance, reliable Wi-Fi network in minutes with Cisco Mobility Express.

Flexible

Cisco Aironet access points support both controllerless deployment for simplicity and wireless controller deployment for scalability.

Affordable

Act now to get the Cisco Aironet Remote-Work Offer, and let Cisco help you build a secure wireless network for remote work.
