

The bridge to possible

Rapid-Response Network Bundle

We're offering a network bundle to help qualifying healthcare organizations roll out secure network connectivity for temporary facilities, quickly and reliably.

As healthcare providers, you are working tirelessly on the frontlines to ensure our safety and well-being, and Cisco is committed to helping you deploy secure network connectivity at scale. For this reason we are providing a no-cost, easy-to-deploy, highly secure, and reliable connectivity solutions for qualifying healthcare organizations. This will help address immediate connectivity needs at temporary healthcare facilities for COVID-19 patients.

Offer description

The Rapid-Response Network Bundle is a flexible solution to quickly deliver connectivity services specific to individual needs of recipients' healthcare locations.

Cisco is providing this Rapid-Response Network Bundle at no charge to qualifying Cisco customers. The bundle includes a combination of Cisco Integrated Services Routers (ISR) with LTE uplinks, Cisco Catalyst Power over Ethernet (PoE) switches, and Cisco wireless access points. We are offering up to two bundles per qualifying customer.

Remote healthcare site with cellular LTE uplink

Includes

1 Cisco Integrated Services Router (ISR) with LTE Uplink

Connectivity within or to tent or temporary facility

Includes

1 Cisco Catalyst Switch with PoE and Fiber

Wireless access for expansion

Up To

5 Cisco Wireless Access Points

The bridge to possible

Setting up a temporary healthcare facility in three simple steps:

1. Set up a connection using a Cisco Integrated Services Router (ISR) with LTE uplink.
2. Connect a Cisco Catalyst switch with PoE and fiber ports so that you can connect access points, cameras, phones, lighting, and other PoE-enabled devices.
3. Connect access points to a switch for reliable, fast, and secure Wi-Fi connectivity for medical staff or patients.

Offer details

- No purchase is necessary to qualify for these bundles.
- Customers can select a combination of switch, router and up to five access points per bundle, with up to two bundles per customer. Exceptions will be considered.
- Customers must be nominated by their account teams to qualify for consideration.
- Cisco will make every effort to support healthcare organizations in this time of need, but due to a limited supply of product, we may not be able to fulfill every request.
- The offer is open to healthcare customers supporting COVID-19 temporary healthcare facilities.
- Bundles are not to be used for proof-of-concept testing.
- For a qualifying customer that cannot accept donations, this offer will be considered a loan.
- The products offered in the bundle may vary at Cisco's discretion and are based on availability.
- Additional terms and conditions may apply.
- Please contact your Cisco account manager or a Cisco representative for more information.
